Welcome to the 2018 CATALOGUE

Dear Customer,

Welcome to the 2018 edition of TTI’s comprehensive range of products.

Trans Tank® International (TTI) is based in Northern Victoria, Australia, where they have been manufacturing rotationally moulded polyethylene tanks for nearly 20 years. Condor Pumps identified a need in the New Zealand market for high quality, globally recognised rotational moulded transport tanks that could withstand heavy use and replace the traditional steel tanks that have been used up until now in NZ.

Condor Pumps has partnered with TTI as an exclusive agent for New Zealand bringing the Trans Tank® International (TTI) range to the Civil and Farming markets as a dedicated distributor with our Head Office in Wellington and a dedicated team offering support and expertise throughout the country.

TTI’s unmatched experience in the industry is reflected in the presentation and functionality of the product range.

Thank you again, we sincerely look forward to working with you.

Joseph Cashmore
Condor Pumps - New Zealand
HEAVY DUTY WATER CARTAGE TANKS

Differences between AquaMove and AquaTrans

There is nothing much in the way of a rotationally moulded polyethylene water cartage tank that compares with the TTI AquaTrans tank range. A really heavy-duty tank with a 20 year warranty is just part of the deal. The AquaTrans is a premium product and is in a league of its own. This is the bees' knees!

Without any compromise, the AquaMove range has been introduced to be a player in the price sensitive end of the market. With a slightly lighter design than the AquaTrans and a 15 year warranty, this is the everyday range.

eliminate surge In Your tank

Complies with load restraint guide performance standards

Reduces fluid movement for improved load stability during transit

Suitable for use with all tanks - poly, steel, fibreglass, aluminium, etc.

Food grade quality material - suitable for potable water

Ball Baffles can be used with water, diesel and other liquids

Simple to install - Balls are supplied in two halves and require a quick click n’ twist clipping together and inserting through lid into tank

No rust, lightweight & durable

Low liquid displacement

With the Safety Ball Baffle system

Guaranteed STRENGTH with EXTRA THICK structure

See page 17 for steel frame options
We purchased a TTi (formerly Rapid Spray Southern) 10,000L tank approx. 8 years ago. Our truck with the tank on it drove over a bridge into a rural property to deliver water and the bridge collapsed, causing the truck to roll. The tank bore the brunt of the impact and we couldn’t believe it but, after we righted the truck, the next morning the tank just ‘popped’ back into shape and away we went again! We also have a 12,000L steel tank (properly made and correctly mounted) and the ongoing maintenance with fatigue and the like is a pain. We would highly recommend a TTi tank to anyone looking to cart water safely!

- Brett & Linda Harris
ABC Water Cartage

Our RCCF grant recipients in Stirling North who purchased one of your 800 litre Fire Fighting Units, recently put it to good use to prevent the spread of a fire on his neighbours’ property.

- Fire & Emergency Services Commission

I just made an enquiry in regards to a 95 litre 12 Volt Unit with a boom. I would like to thank you for your advice, assistance, prompt, efficient and excellent service.

- Susan

I can’t speak highly enough of them. These guys go above and beyond to help us and our business grow. I could not recommend a better company to deal with.

- Fiona Colomb - Farm City Lidcombe

Many thanks Ross. What fantastic service you have provided. You’ve gone above and beyond.

- Jenny Schwieger

Check out what our customers said!

Our Poly Tanks are as Tough and Durable as they come - Even After a Mishap!

TO SECURE YOUR DEAL
OUR TANKS

Have the most extraordinary impact-resistant qualities and are impervious to the toughest conditions.

Incorporates in-built Tuff-Flex technology to allow real flex to easily handle any work environment.

Use specially blended polyethylene to handle the broadest range of liquids possible from plain water to the harshest chemicals – ask for a copy of our compatibility chart!

This tractor is no match for our tough poly tanks!

What to look for when selecting a spray tank

- Basket filter supplied with tanks 200 Litres and larger
- Large tank opening for fast, easy filling. Sealed with 455mm lid with labyrinth breather
- Easy fill, no spill containment lip on all spray tanks above 500L
- Smooth interior and integral sump enables complete evacuation and decontamination of tank
- SureFit: Safe and secure mounting pin system
- Easy to read calibrations for measurement of contents (coloured for catalogue purposes)

- Strong and durable, impact resistant, UV stabilised polyethylene
- Manufactured from UV stabilised polyethylene specifically formulated for chemical spray
- Impervious to most chemicals
- Full drainage sump
- Available with robust hot-dip galvanised steel mounting frame for correct tank support and ease of mounting

Despite being run over by a heavy John Deere, all it needed was to be pushed back into shape and a quick clean and it was ready to use again.

Note: We don’t recommend you try this with a steel or fibreglass tank!
**TTi Chemical Tanks**

- **Smooth-walled interior design** incorporating a fully integrated sump that ensures complete evacuation and decontamination of the tank to maximise liquid usage and simplify cleaning.
- **Are manufactured to dual Australian Standards** (AS2070:1999 and AS4766:2006) making TTi’s of the highest quality, toughest & most durable tank on the market.
- **Include a positive draining tank base with sump** providing a flooded suction regardless of terrain.
- **Are impervious to most chemicals**.
- **Heavy duty tanks** with load rating up to 1.3 Specific Gravity (SG).
- **Australian made for Australian conditions**.
- **20 year warranty** - buy with confidence.

- Low Profile
- Tuff-Flex Technology
- UV Stabilised Poly Construction
- Guaranteed Strength
- Extra Thick Structure
- Easy Flow Drainage System
- Quick and Easy to Clean
- Supplied with Lid and Filter Basket
- Supplied with Outlet Fitting

**Get the tank in your corporate COLOUR** see page 12

Cutaway shows full drain sump
End view shows sump clearance
Outside view of Pin
Cutaway of tank showing pin mount

Note: Tanks not mounted in accordance with our specifications may void warranty.

**Our frames:**
All spray tanks **require a steel mounting frame** to give sumps clearance for access. Thicker wall steel coupled with our **hot-dip galvanised** process provides real toughness for a long useful life.

Selecting a lid for your tank has never been easier.

Simply select the size and choose the style that fits your application.

Add a mesh strainer to provide the first level of filtration protecting your water.

The lids combine high quality, chemical resistant UV stabilised polypropylene construction with a neat appearance making them the ideal choice.

All DieselCaptain tanks are moulded with our unique aluminium ring for incredible strength!

This unique multi seal system keeps the rain out and your diesel in.

Did You Know?

All TransDiesel tanks comply with AS1940-2004 and AS2809.2-2008.

All TransDiesel tanks are manufactured from specifically formulated diesel grade polyethylene that meets International Regulation ECE R34.01 requirements.

### Single Axle DieselPatrol 15 Trailers

#### Huge Range of Fit-Out options

- Built to high level ADR requirements
- "Tough Enough" heavy duty steel chassis featuring hot-dip galvanising for maximum protection for tough, long term durable performance
- Large 15" wheels with the famous Landcruiser hub pattern for strength, maximum ground clearance and excellent manoeuvrability (800L - 3000L)
- Specially strengthened steel mudguards with rolled edge for maximum wheel protection
- Greatly improved puncture resistance with our 6 ply radial tyres, which also helps heavy load capability

What Makes a FirePatrol15 Trailer Unique?

- Reinforced A-Frame drawbar: 100 x 50mm RHS steel.
- Unique tank positioning distributes weight evenly when empty and full.
- UV stabilised lightweight poly tank fitted with Ball Baffle Safety System.
- Extra gussets for added strength.
- Large 15” wheels with Sunraysia rims ensure smooth towing.
- Rear pump plate ensures operator safety. Eliminates chances of operator being trapped between vehicle and trailer.
- Filled in chequer plate mudguards prevent road grime flicking onto tank.
- Large 50mm solid axle with eye-eye springs and 6-stud hubs.
