

Overflow rating

High capacity overflow system

Test was conducted on 16 February 2017

Overflow rating test on Nebraska and Robiq sinks with our new high capacity overflow system.

Test instructions:

Nebraska and Robiq sinks were tested with our high capacity overflow system fitted, to establish the maximum drain rate of the sink without overflowing.

Results:

Testing was conducted on the 16th of February 2017.

The maximum flow rate (water level at the top of the sink without overflowing) was 15 L/min for Robiq sinks and 20.5 L/min for Nebraska sinks.
