

HACCP Touch

CMKREC020P01 Data Recorder

New!

A simple, paperless data management tool for today's busy kitchens!

The **HACCP Touch** is an easy and cost-effective system for collecting, recording and storing daily temperatures of critical items in receiving, storage, prep, cooking and holding, as well as many of the other checklists you've been filling out by hand.

Corrective actions are logged to demonstrate your immediate response to failures in critical temperatures and your full commitment to food safety and public health.

The software program can be downloaded free at www.tiptemp.com. A program is easy and intuitive to write and you can make it as simple or detailed as you wish, so you record only what's important to you!

Benefits

- Paperless records and tamper-proof data
- Critical Control Points are monitored with programmed corrective actions
- Record HACCP temperatures and other checks
- Download to Microsoft Excel™ for reports
- Data export in PDF format

Features

- 3 inch four colour resistive touch screen
- Temperature range: -73° to 537°C / -99°F to 999°F
- Unit accuracy of ± 0.5°C/ 1°F
- Water resistant with durable ABS plastic rubber boot
- Program, download and recharge battery via micro USB cable (included)
- Secure password protection
- Accepts all T and K type thermocouple probes
- Store up to 65,000 readings in up to 100 separate folders for instant retrieval by date or product
- Low battery indicator
- Free software download on : www.tiptemp.com
- One year warranty on CMKREC020

Penetration Probe
(comes standard)

HACCP Touch

CMKREC020P01 Data Recorder

Specifications	Minimum	Typical	Maximum	Unit
Battery life		8		Hours
Temperature measurement range	-73°C (99°F)		+537°C (+999°F)	°C(°F)
Internal resolution		0.1°		
Temperature accuracy (instrument only)		±0.5°C (0.9°C)		°C(°F)
Data recording capacity (per recording)			65000	Readings
Storage capacity			100	Files
Operating temperature range	0°C (32°F)		+50°C (+122°F)	°C(°F)

Software

Download from www.tiptemp.com. Programming instructions are included and can be completed by anyone with access to the PC and knowledge of your existing HACCP program.

Probes

There are several TIP TEMP probe options to use for temperature measurement:

PT22M/W Penetration Probe (3.3mm)
Temperature range: -100° to +250°C (-148° to +482°F)

PK24M Penetration Probe (3.3mm)
Temperature range: -50° to +250°C (-58° to +482°F)

PK19M Penetration Probe with Reduced Tip (1.5mm)
Temperature range: -50° to +250°C (-58° to +482°F)
