

Front & Rear Camera System for BMW - NBT

Part No: 1309

This high quality German camera system is the perfect upgrade for BMW vehicles. Many modern BMW vehicles did not come with a factory reverse camera and this plug and play solution solves this problem by easily integrating reverse camera into the existing factory display. It will even show dynamic dynamic guidance lines that move with the steering wheel.

In addition it is designed to easily add a front camera which is becoming more and more popular to help avoid damaging your front bumper or spoiler. All the high tech features you would expect from a German product like this.
