## **IMMEDIATE RELEASE**

### **Strike Group releases aviation mounts for tablets and smartphones**

BRISBANE, November 13, 2015 – In the past, aircraft cockpits have been cluttered by paper navigation charts and manuals. Many pilots are switching to digital systems, which allow them to access information faster and keep the cockpits in an organised fashion.

Major phone manufacturers have designed enterprise grade products such as smartphones, tablets and iPads to help boost productivity, resulting in improved aviation services.

Brisbane based hands-free tech company Strike Group have released heavy duty Mobile Phone and Tablet mounting solutions specifically designed to suit aircraft environments.

Partnering these mounts with a Strike Alpha Cradle provides a complete solution that can be used in planes or helicopters, attached to an industrial equipment or even displayed as a counter top stand. The mounts also allow tablets to be protected in waterproof devices such as an Otterbox case, perfect for environments where liquids might be spilled.

An optional lock can be added to Strike's tablet specific and universal holders to provide additional security from theft and tampering.

"The future of hands-free technology in the aviation world has just been unveiled," said Chris Ryan, CEO of Strike Group. "The company has just introduced mounts which are specifically designed to fit almost all working environments. The latest range of mounts are versatile, flexible and reliable. They mount onto almost any surface with ease and have adjustable components for superior viewing to help users angle their device perfectly depending on their preference."

### **Seven Aviation Rugged Mounts**

1. **Strike HD Pedestal Mount** – features a 6.5" arm can be drilled onto any flat surfaces such as tablets, walls and workbenches enabling you to access your device with ease.
2. **Strike HD Arm Mount** – with its 4-hole drill and features a 22" adjustable arm with 2 ball & socket joints for limitless positioning options.
3. **Strike HD Pedestal Mount with 10" Adjustable Arm and Drill Base** – features a 10" adjustable arm so user can angle their device depending on their preferred viewing position.
4. **Strike HD Gooseneck Mount** – features a 22" flexible gooseneck for maximum coverage which allows user to navigate their tablet or phone conveniently.
5. **Strike HD Bar Mount** – This mount can fit up to 33mm in diameter and can be adjusted to any cylindrical bars.
6. **Strike HD Pedestal Mount with 10" Adjustable Arm and C-Clamp Base** – clamps onto almost any surface easily without screws which allow seamless and easy installation.
7. **Strike HD Pivot Mount** – can sit securely onto countertops or desks and allows full 360 degrees rotation for portrait to landscape viewing.
