

SKILLS EVALUATION TOOL

COMPUTER LITERACY ASSESSMENT

Place your students in the course that best fits their skill level

Today's students arrive with a wide range of computer skills. Optimal course placement ensures higher success rates and less frustration for students. It also allows instructors to focus on teaching the content of the course instead of assisting ill-prepared students.

identify needed areas of additional emphasis, make mid-course adjustments and confirm learning has taken place.

Design, deliver and analyze tests with confidence

Built on our proven platform, eLab Skills Evaluation Tool (SET) provides all the tools you need to create, administer, and grade tests that accurately evaluate your students' skills. Students demonstrate their understanding of the application with a variety of paths to the correct answer—just like in the real world. Test scores are available for analysis immediately upon test completion.

Ensure online students are prepared for success

Students lacking sufficient knowledge of email, file management, and other computer concepts struggle to use the basic tools necessary for success in online courses. With pre-course assessments, individual students lacking critical skills and knowledge can be identified and encouraged to take prerequisite courses or develop proficiency on their own.

Enjoy quick, no-hassle set up and use

While eLab SET is a powerful tool, it is simple to set up and use. Elect to use questions from our extensive question library or develop your own. The easy-to-use interface makes test design and implementation a quick task. And our experts are available to help if you need it.

Develop and adjust your course with knowledge of your students' needs

Knowing your students' strengths and weaknesses enables you to tailor your class to meet their unique needs. Assessments can be taken before, during, and after the course to

Labyrinth Learning Solutions: eLab Skills Evaluation Tool

DESIGN

Question Library

A complete question library is at your fingertips, including multiple choice, matching, sequence, and highly realistic simulation questions allowing multiple paths to reach the answer.

Broad Computer Literacy Coverage

Pre-designed questions cover computer concepts, the internet, email, file management, and Microsoft Office applications. You choose the topics and the number of questions you want to include for each one.

Customize your Test

Add your own questions, modify existing questions, add a completely different category of questions. Establish the preferences and settings that work best for your exam.

DELIVER

Flexible, Online Access

Testing can be done anytime, on any online computer. Tests can be taken once or multiple times — before, during and after the course. You decide when, where and how often tests are available.

Quick Registration

Register students quickly and easily. Upload student data prior to the exam so students are ready to go, and/or register students at time of test.

Built-in Fraud Prevention

Guard against cheating with features to scramble exam questions or randomly select questions for each student.

ANALYZE

instant and Accurate Results

Student scores are immediately calculated and recorded. You can provide results to students immediately or at a later time. Reports enable you to track and analyze individual and/or group results.

Fresh thinking backed by 20 years of helping educators to teach and students to learn

Since 1990, Labyrinth Learning has been working closely with educators like you to develop easy-to-use solutions that empower educators to teach complex subjects quickly and effectively – and enable students to gain confidence, develop practical skills, and to compete in a demanding job market. Now, we are building on that expertise with solutions that go far beyond books.

Unwavering commitment to high-quality solutions, responsive customer service, and affordability

Our goal is to make sure that you have the most user-friendly and error-free solutions that we can deliver. Our convenient customer service offers fast, responsive help online and by phone. And we pride ourselves on keeping our costs low so we can pass on savings to your students.
