

Assessment and Learning Management

EVALUATE AND IMPROVE YOUR STUDENTS' SKILLS WHILE SIMPLIFYING COURSE MANAGEMENT

Prepare your students for the real world

Online, interactive simulations – so real users think they're using the actual software applications

give your students the experience they
 need to be successful in today's workplace.

Engage with effective, online learning tools

Engage students with multiple learning resources to meet the needs of every

learning style. Interactive lessons, immediate feedback, and video tutorials foster learning and retention.

Assess skills and track progress

Students demonstrate their understanding of the application with a

variety of routes to the correct answer—just like in the real world. Test reports and a full record of results are recorded immediately.

Enjoy quick, no-hassle set up and use

Save time on set up with our 3-step process. You're immediately ready to go with our

Course-in-a-Box solutions, complete with pre-populated learning resources, exams and assignments. Users

quickly master the easy-to-use interface with little or no training.

Customize to meet the unique needs of your course

Include only the areas you want to test.

You can build custom assessments using our questions or by adding your own. You also have

complete flexibility to customize how grades are calculated.

Labyrinth Learning Solutions: eLab Course Management System

Features

Automated Assessment

eLab automates the process of evaluating student work. Students demonstrate skills in a highly realistic, simulated environment. Assignments are submitted directly through eLab and students receive instant, detailed feedback.

Gradebook Management

eLab immediately records all results in your online gradebook. You can provide grades to students immediately or at a later time. Reports enable you to track individual and class progress.

Learning Resources

Training resources include video tutorials for nearly every topic in every lesson, realistic simulations that allow multiple paths to reach the answer, and record/playback feature to review step by step actions.

Seamless Integration with Textbook

eLab lessons and resources are seamlessly integrated with Labyrinth materials, making it easy for educators to integrate into curriculum and easy for students to follow.

Communications Tools

Send emails to students and other users directly within eLab using eLab Course Mail. Save and store communications to retain a permanent record.

Built-in Fraud Prevention

Guard against cheating with features to scramble exam questions or randomly select questions for each student. Project submissions are assigned a unique security code that cannot be submitted again without your knowledge.

Project Grading

Train and test your students ability to complete project-based assignments using the actual Office applications. Customizable grading options offer complete flexibility.

Fresh thinking backed by 20 years of helping educators to teach and students to learn

Since 1990, Labyrinth Learning has been working closely with educators like you to develop easy-to-use solutions that empower educators to teach complex subjects quickly and effectively – and enable students to gain confidence, develop practical skills, and to compete in a demanding job market. Now, we are building on that expertise with improved textbooks and solutions that go far beyond books to meet the needs of today's educators and students

Unwavering commitment to highquality solutions and responsive customer service

Our goal is to make sure that you have the most user-friendly and error-free solutions that we can deliver. Our commitment to quality includes using final software releases for screen shots to ensure accuracy and avoid confusion for students and educators. And our convenient customer service offers fast, responsive help online and by phone.
