

ISX/QSX NEW CAMSHAFT BEARING & GASKET INSTALLATION KITS

AFA announces the availability of three new kits for the Cummins® ISX/QSX engines. These new kits are designed to help installation of either camshafts or camshaft bearings. Each kit contains our superior design camshaft seals, manufactured in one of our own plants. These seals are made from the highest quality materials and are guaranteed to seal the first time.

Part number **AFA-ISXGCSKB** is our Camshaft Gasket & Seal Kit W/Bushings that contains the front upper cover gasket and the 6 seals needed to seal the camshaft covers and plates inside the cylinder head and also includes the camshaft & injector cam bushings.

Part number **AFA-ISXGCSK** is our Camshaft Gasket & Seal Kit that contains the front upper cover gasket and the 6 seals needed to seal the camshaft covers and plates inside the cylinder head.

Part number **AFA-ISXCCK** is our Camshaft Seal Kit that contains the 6 seals needed to seal the camshaft covers and plates inside the cylinder head.

AFA Industries has a complete offering of engine parts for Cummins® engines to rebuild most everything on the engine. Also available are In-Frame and Complete Overhaul engine kits, Cylinder Components, Valve Train parts, Water and Oil pumps, Cooling System Components, Fuel System Components, and other engine parts to help you repair most components for the ISX/QSX Series engines.
