INDUSTRIAL WORKWEAR

SUPPLIER OF CHOICE TO THE OIL & GAS, CONSTRUCTION AND MINING INDUSTRIES

We understand the importance of premium workwear on work sites and have sourced and developed a range of safety products to meet the needs of the Oil & Gas, Mining and Construction industries.

We have an unrivalled portfolio of quality products that will ensure we continue to meet the changing needs of our customers. Site Ware Direct is a WA owned and operated business with years of combined safety experience. With our Head Office located in Perth, and distribution centres in NT, VIC and QLD we are able to provide solutions that exceed market expectation across Australia and Trans-Tasman industries.

Our ability to provide a diverse range of products and tailored service solutions, along with our customer-focused approach is the key to our continued customer-focused relationships and business success.

We believe that we distinguish ourselves from other suppliers by providing the following:

- Approved Red Wing Stockist and distributor in WA
- On-site embroidery and screen printing service
- Competitive and sustainable pricing structures
- Multiple warehousing options
- Tailored ordering options
- High quality customer service through fully trained personnel
- Education, and training from direct manufacturers
- E-business integration

At Site Ware Direct we are fully committed to continually develop our brand by delivering results that are unique, efficient, and beyond the client's expectations.

To ensure we keep up with the changing face of our business, Site Ware Direct's brand and reputation continues to grow and remain strong, through advertising, product development, and listening to our customers' needs and requirements.

Driven by the quality of each opportunity, we strive to be the Supplier of Choice to the Oil & Gas, Construction and Mining industries.

FOOTWEAR

Site Ware Direct footwear range is designed to provide maximum comfort and protection. We take great satisfaction in offering the highest quality footwear to protect hardworking Australians. All footwear we recommend is designed under stringent quality standards to withstand even the most damaging work environment.

FUTURE OF SUPERIOR PERFORMANCE LACING **BOA® LACING SYSTEM BY RED WING.**

WHAT IS BOA® TECHNOLOGY?

New Boa technology makes lacing up as quick and easy as turning a dial. One click of the reel releases laces for instant loosening.

These boots are the perfect choice for workers who require quick on/off convenience. Once the dial is adjusted, lace tension is locked in.

The laces, made of air-craft grade stainless steel, are stronger per gram than tank armour. The reel and laces are guaranteed for the life of the boot.

With a simple twist of the Boa® dial, laces come together evenly for a quick, comfortable fit. The Boa® reel allows customers to dial in the perfect lace tension with no pressure points.

This technology is utilized
on the following products:
625-3261
625-3282

Protect your investment - detailed cleaning and conditioning helps preserve the finish and life of your leather footwear.

FOR OILED LEATHERS

1. Remove dirt from the shoe by cleaning thoroughly with a stiff bristle brush.
2. Scrub gently with Leather Cleaner and then wipe off the cleaner and dirt with a clean cloth. Boots should then be dried naturally in a cool, dry place, as high heat can remove oils in the leather.
3. Using leather cleaner reduces the oil in the leather. To re-add oil to the leather apply Shoes Boot Oil or Mink Oil as directed.
4. Add extra protection to preserve your footwear investment. Leather Protector provides an invisible shield from water, dirt, oil, and mud.

FOR ROUGHOUT LEATHERS

1. Remove dirt with a suede cleaner kit brush.
2. Clean remaining heavy dirt with the rubber suede cleaner. DO NOT use leather cleaner for roughout leathers, as it can stain and change the texture of the leather.
3. Remove loose fibres with the cleaner kit brush.
4. Lastly, apply Leather Protector spray to all surfaces of the boots. Leather Protector provides an invisible shield from water, dirt, oil, and mud.

FOR FEATHERSTONE LEATHERS

1. Remove dirt from the shoe by cleaning thoroughly with a stiff bristle brush.
2. Soak a soft, clean cloth with Leather Cleaner. Clean the boot thoroughly with the cloth. Boots should then be dried naturally in a cool, dry place, as high heat can remove oils in the leather.
3. Gently apply Shoe Creme with a clean, soft cloth.
4. Shine the boot by brushing before the shoe creme is fully dried.

SHOE CARE

BUFFING BRUSH

Made with genuine horse hair, helps to eliminate dust and dirt.

Code	Description
627-95164	Buffing Brush

LEATHER CLEANER

Creates a foaming action, lifts dirt particles from leather.
