WELCOME TO THE **2018** CATALOGUE

Dear Customer,

Welcome to the 2018 edition of TTi's comprehensive range of products.

Trans Tank® International (TTi) is based in Northern Victoria, Australia, where they have been manufacturing rotationally moulded polyethylene tanks for nearly 20 years. Condor Pumps identified a need in the New Zealand market for high quality, globally recognised rotational moulded transport tanks that could withstand heavy use and replace the traditional steel tanks that have been used up until now in NZ.

Condor Pumps has partnered with TTi as an exclusive agent for New Zealand bringing the Trans Tank® International (TTi) range to the Civil and Farming markets as a dedicated distributor with our Head Office in Wellington and a dedicated team offering support and expertise throughout the country.

TTi's unmatched experience in the industry is reflected in the presentation and functionality of the product range.

Thank you again, we sincerely look forward to working with you.

Joseph Cashmore

DIFFERENCES BETWEEN **AQUAMOVE** AND **AQUATRANS**

There is nothing much in the way of a rotationally moulded polyethylene water cartage tank that compares with the **TTi AquaTrans tank range**. A really heavy-duty tank with a 20 year warranty is just part of the deal. The **Aquatrans** is a **premium product** and is in a league of its own. ***This is the bees' knees!***

Without any compromise, the **AquaMove range** has been introduced to be a player in the price sensitive end of the market. With a slightly lighter design than the AquaTrans and a 15 year warranty, **this is the everyday range**.

ENQUIRE Now!
0508 044 055

HEAVY DUTY WATER CARTAGE TANKS

Easy fill, **no spill containment** lip on tanks over 400 Litres

Large tank opening for fast, easy filling. Sealed with **455mm lid with labyrinth breather**

All tanks are **cooked to temperature**, not time

Extra thick tank structure with a load capacity of up to an enormous 1:1.3 Specific Gravity on all on all AquaTrans

Exclusive, **specially developed** and formulated **polyethylene** incorporating our "**Tuff-Flex Molecular Technology**" ideal for safe & secure transporting

Easy to read **calibration on side wall** of tank for quick measurement of contents (when sight level tube fitted on tank under 6000 litres)

Specifically designed footings to enable easy mounting to any flat surface - mounting pins included.

ORDER with **BALL BAFFLES** to reduce surge & **INCREASE STABILITY**

UV stabilised to withstand the elements

Free **outlet fitted** with every tank

SureFit Tank securing kit available for all water cartage tanks

WATER & FOAM TANKS

- » Impact **resistant**
- » Space **saving** profile
- » UV **stabilised** for years of use
- » **Moulded** inserts for mounting
- » Tanks can be **drilled and tapped** to accept fittings
- » **Extra thick** structure for handling pressure up to 4 psi

eliminate surge In Your tank

Complies with load restraint guide performance standards

Reduces fluid movement for improved load stability during transit

Suitable for use with all tanks - poly, steel, fibreglass, aluminium, etc.

Food grade quality material - suitable for potable water

Ball Baffles can be used with water, diesel and other liquids

Simple to install - Balls are supplied in two halves and require a quick click n' twist clipping together and inserting through lid into tank

No rust, lightweight & durable

Low liquid displacement

With the **Safety Ball Baffle system**

Guaranteed **STRENGTH** with **EXTRA THICK** structure

See product in action!

See product instructions

Designed to **reduce LIQUID SURGE**

IMPROVE SAFETY with our **BALL BAFFLE SYSTEM**

The Toughest Tanks!

OUR **POLY TANKS** ARE AS **TOUGH** AND **DURABLE** AS THEY COME - EVEN AFTER A MISHAP!

CHECK OUT WHAT OUR CUSTOMERS SAID!

"I can't speak highly enough of them. **These guys go above and beyond to help us and our business grow.** I could not recommend a better company to deal with.

- **Fiona Colomb** - Farm City Lidcombe

"I just made an enquiry in regards to a **95 litre 12 Volt Unit with a boom**, I would like to thank you for your **advice, assistance, prompt, efficient** and **excellent service.**

- **Susan**

"Our **RCCF grant recipients** in Stirling North who purchased one of your **800 litre Fire Fighting Units**, recently put it to good use to prevent the spread of a fire on his neighbours' property.

- **Fire & Emergency Services Commission**

"Many thanks Ross. What **fantastic service** you have provided. You've gone above and beyond.

- **Jenny Schwieger**

"We **purchased a TTi** (formerly Rapid Spray Southern) 10,000L tank approx. 8 years ago. Our truck with the tank on it drove over a bridge into a rural property to deliver water and the bridge collapsed, causing the truck to roll. The tank bore the brunt of the impact and we couldn't believe it but, after we righted the truck, the next morning the tank just 'popped' back into shape and away we went again! We also have a 12,000L steel tank (properly made and correctly mounted) and the ongoing maintenance with fatigue and the like is a pain. We would highly recommend a TTi tank to anyone looking to cart water safely!

- **Brett & Linda Harris**
ABC Water Cartage

THE ANSWER TO YOUR **CHEMICAL** TRANSPORT NEEDS

Needing to **cart different chemicals** in one load? Read on...

Modules can be plumbed to **drain independently or together!**

- ✓ **No Rust**
- ✓ **Expandable Tank Capacity**
- ✓ **Large Range of Sizes**
- ✓ **Proven Mount System**

Extra Payload **FULLY BAFFLED** (Every 2500 litres)

Exclusive use of polyethylene **eliminates rust problems** and significantly **reduces weight** resulting in increased payload and durability

InterLoc Modular Tank with Steel Frame, & 2" outlet fittings

Modular **TANK** SYSTEM FULLY DRAINABLE

CALL NOW
0508 044 055
TO SECURE YOUR DEAL

OUR TANKS

Have the **most extraordinary impact-resistant qualities** and are impervious to the toughest conditions

Incorporates in-built Tuff-Flex technology to allow real flex to easily handle any work environment

Use **specially blended polyethylene** to handle the **broadest range of liquids** possible from plain water to the harshest chemicals – ask for a copy of our compatibility chart!

This tractor is no match for our tough poly tanks!

Fully Drainable CHEMICAL TANKS

What to look for when selecting a **spray tank**

Basket filter supplied with tanks 200 Litres and larger

Large tank opening for fast, easy filling. Sealed with 455mm lid with labyrinth breather

Easy fill, no spill containment lip on all spray tanks above 500L

Smooth interior and integral sump enables complete evacuation and decontamination of tank

SureFit Safe and secure mounting pin system

Easy to read calibrations for measurement of contents (coloured for catalogue purposes)

Strong and durable, impact resistant, UV stabilised polyethylene

Manufactured from UV stabilised polyethylene specifically formulated for chemical spray

Impervious to most chemicals

Full drainage sump

Available with robust hot-dip galvanised steel mounting frame for correct tank support and ease of mounting

Despite being run over by a heavy John Deere, all it needed was to be pushed back into shape and a quick clean and it was ready to use again.

Tough poly tanks!

Run over by John Deere!

Shape back to reusable!

Now, that's
one tough TANK!

Note: We **don't** recommend you try this with a steel or fibreglass tank!

TTi Chemical Tanks

- » **Smooth-walled interior design** incorporating a fully integrated sump that ensures complete evacuation and decontamination of the tank to maximise liquid usage and simplify cleaning
- » **Are manufactured to dual Australian Standards** (AS2070:1999 and AS4766:2006) making TTi's of the highest quality, toughest & most durable tank on the market
- » **Include a positive draining tank base with sump** providing a flooded suction regardless of terrain
- » Are **impervious to most chemicals**
- » **Heavy duty tanks** with load rating up to 1:3.1 Specific Gravity (SG)
- » **Australian made for Australian conditions**
- » **20 year warranty** - buy with confidence

- | | |
|-----------------------------------|---------------------------------------|
| ✓ Low Profile | ✓ Easy Flow Drainage System |
| ✓ Tuff-Flex Technology | ✓ Quick and Easy to Clean |
| ✓ UV Stabilised Poly Construction | ✓ Supplied with Lid and Filter Basket |
| ✓ Guaranteed Strength | ✓ Supplied with Outlet Fitting |
| ✓ Extra Thick Structure | |

Get the tank in your corporate **COLOUR** see page 12

Cutaway shows full drain sump

End view shows sump clearance

Outside view of Pin

Cutaway of tank showing pin mount

Note: Tanks not mounted in **accordance with our specifications** may void warranty

Our frames:

All spray tanks **require a steel mounting frame** to give sumps clearance for access.

Thicker wall steel coupled with our **hot-dip galvanised** process provides real toughness for a long useful life.

Call one of our friendly team today!

DIESELCAPTAIN Large Capacity Tanks Your Refuelling Partner!

These **contractor quality units** have been designed to withstand the most demanding conditions in Australia and around the world. The **extra strong tank wall provides protection** against rough treatment.

- » Fitted with **Ball Baffle Safety System** to eliminate surge and improve safety
- » Large **pump compartment** protects pump and hose from theft and the weather
- » Choice of **45L/min** and **60L/min** pumps
- » **6m of delivery hose** for extra long reach
- » **Unique breather design** prevents diesel from splashing out of the tank.

What Makes a FirePatrol15 Trailer Unique?

UV stabilised **lightweight poly tank** fitted with **Ball Baffle Safety System**.

Unique tank positioning distributes weight evenly when empty and full.

Reinforced A-Frame drawbar.
100 x 50mm RHS steel.

Extra gussets for added strength

Rear pump plate ensures operator safety. Eliminates chances of operator being trapped between vehicle and trailer.

Filled in **chequer plate mudguards** prevent road grime flicking onto tank.

Large 50mm solid axle with eye-eye springs and 6-stud hubs.

Large 15" wheels with Sunraysia rims ensures smooth towing.

Standard sprung axle farm trailer **with no brakes or** on road model fully equipped **with brakes and lights**
