

Designed for libraries of all sizes, the EnvisionWare® Modular Sorter™ is highly customizable and flexible.

From 2 bins to a complete library logistics center, this flexible sorting solution can grow and adapt with the needs of your library.

- Leverages leading-edge technology from EnvisionWare's automated materials handling partner
- Systems are remotely managed for rapid remote diagnostics and easy upgrading
- Barcode, RFID, and EM compatible
- Supports a variety of receptacles including large and small expandable trolleys, auto-leveling high capacity receptacle, library delivery totes, and a stacking cart that converts to a shelving cart
- Custom modules for special applications
- 10-year guaranteed service

The EnvisionWare Modular Sorter is backed by 24/7 live support with guaranteed response time and on-site service in 6 hours.*

*The Service Level Agreement will define performance and penalties for your system.
