

BROWZWEAR

FROM VISION TO REALITY

A Complete 3D Solution for Fashion

UNLEASH THE POWER OF TRUE-TO-LIFE 3D

Browzwear brings the power of true to life 3D to fashion design, development, marketing and collaboration with three easy to use products that help you express your creativity and shorten time-to-market.

- Improve communication and collaboration
- Reduce development costs
- Enhance creativity
- Reduce product returns

VSTITCHER

3D FASHION DEVELOPMENT

vStitcher is the industry-leading 3D virtual prototyping solution for developers, pattern makers and technical designers.

Easily transform your 2D patterns into realistic 3D prototypes using vStitcher. Develop and share realistic prototypes long before the physical samples are ready.

- Early prototyping - long before samples or fabrics are available
- Instant, realistic 3D pattern visualization
- Fast, accurate 3D style development
- Accelerates the pattern development process
- Improved communication with designers and manufacturers
- Convenient integration with 2D pattern software, image design suites, 3D modeling
- Rendering solutions and more...
