

With whisper-quiet technology, 99.5 percent uptime and complete flexibility, it's no wonder that libraries count on EnvisionWare for their automated materials handling needs.

Flexibility to Adapt with Your Library

EnvisionWare offers automated materials handling solutions in partnership with PV Supa. Regardless of the size or shape of your library, the modular sorter is designed to meet your needs. The system is highly customizable and ranges from 2 to 253 bins, giving you the flexibility to grow and adapt with the needs of your library.

- Whisper-quiet operation (< 55db)
- Modular and expandable
- Barcode, RFID and EM
- 99.5 percent uptime
- Adaptable - install a 2-bin system that grows or install a 50- or 200-bin central sorter
- Automatically prints hold slips
- Elevators available to traverse multiple floors
- Use large or small bins, library totes, and/or auto stacking and shelving trolleys
- Simple indoor return, advanced stainless return and external 24-hour return for the most adverse conditions
- Fire protection system for external returns
- Custom modules for special applications
- Backed by EnvisionWare's 24x7 live support with a guaranteed response time and on-site service in 6 hours*
- 10-year guaranteed service

This automated materials handling (AMH) system is monitored by our Central Management system to ensure rapid response and make upgrading a breeze.

*The Service Level Agreement will define performance and penalties for your system.
