

Peltor™ Lite-Com™ Plus Headsets

The 3M™ Peltor™ Lite-Com™ Plus boasts the same great features as the standard Lite-Com (hands-free communication up to 1 km), with an improved user interface and digital speech recognition. The Lite-Com Plus allows users to be better connected with their immediate environment, hearing ambient sounds such as conversation and warning signals while still maintaining clear two-way communication over long distances.

- Designed for people who work in teams or groups, where communication is essential
- 69 two way radio channels on the LPD 433 MHz band
- 121 sub channels
- Built-in active-sound function lets you hear ambient sounds; warning signals, machine sounds, conversation, etc. Sudden impulse noise at harmful levels are immediately attenuated
- Electronic voice guided menu system
- Separate PTT (push to talk) button for the auxiliary input, where a mobile phone, radio, or other audio source can be connected
- Squelch, VOX and audio input adjustment lets you configure the earmuffs to your personal choice. These settings can then be saved in the pre set buttons
- Unused, Lite-Com Plus switches off automatically to conserve batteries
- Rechargeable lithium-ion battery with 20 hours operating time
- Battery status indication

Hearing Protection Solutions Made Innovatively Easy

detection

Detecting and monitoring noise exposures in the workplace is the first step to ensure your workforce is protected. 3M's accurate, reliable, and flexible instrumentation coupled with powerful software is the innovative solution for your noise detection challenge.

protection

It is critical to select hearing protectors that your employees are motivated to wear. 3M has a broad selection of hearing protectors for a wide range of environments. Trouble fitting your earplugs? Need to communicate in noise? Dirty hands? Hot, humid conditions? These are just a few of the many challenges that 3M's innovative products can help solve for you.

validation

3M™ E-A-Rfit™ Validation System utilizes F-MIRE technology to measure and obtain an objective, quantitative level of employee hearing protection in just 10 seconds per ear. Workers receive their own personal attenuation rating (PAR) and learn how correctly fitting their earplugs increases their level of protection.

3M customers can also contact 3M TechAssist on

to answer questions on product information, technical
advice and guidance with product selection.

⚠ WARNING

Hearing Protection Products*

These hearing protectors help reduce exposure to hazardous noise and other loud sounds. **Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury.** For proper use, see supervisor, User Instructions, or call the 3M Personal Safety Technical Service team. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing earplugs. Failure to do so may result in hearing loss or injury.

Choking Hazard—Keep away from infants and small children.
